SW-MOTECH

Company

15 years ago Jörg Diehl, Jürgen Swora and Kai Jockel founded SW-MOTECH. All were driven by the same motivation: their passion for motorcycles.
The successful story begins 1999 with the development of touring accessories for extreme situations, followed by further revolutionary and innovative products.

Today, SW-MOTECH is a renowned producer of premium accessories for the motorcycle market and accredited OEM supplier. Qualified distributors represent SW-MOTECH in 60 countries across the globe.

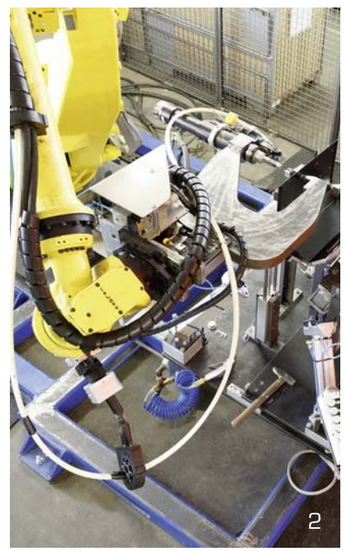
Innovation

The engineers, designers, and prototypers at SW-MOTECH are continually working close together to push quality standards and find new ways to develop better products. When making bike-specific products, precision is always a major factor. SW-MOTECH is already known for producing well thought out products that fit even better than many OEM parts, but that is not enough. The recent addition of 3D scanning technology (1) is one example of how our company is continually seeking new ways we can improve. As a result we can develop parts with a higher level of precision and efficiency, allowing us to design bike-specific products that are perfectly integrated into the geometry of each individual motorcycle.

Experience

Experience is the best foundation to develop extraordinary products. In combination with new technologies we create even better products for the future. Every day.

The robot-based production of TraX EVO ALU-BOXes in Germany (2) symbolizes our commitment to continually search for new technologies and growing performance. With every product we develop we gain valuable experience.



2

Motivation

SW-MOTECH always stayed focused on their goals.
A key factor in meeting these goals is having employees who are highly motivated to contribute their experience and commitment in several areas.

Our service orientation and availability is especially valued by our customers.

Together we grow in quality, flexibility and performance.

F.l.t.r.:
Jörg Diehl, Jürgen Swora, Kai Jockel

Product news 2014:
SEAT-RACK

BAGS-CONNECTION

Company

Achim Kessler founded BAGS-CONNECTION in 2003 to create soft luggage for ambitious and adventurous motorcyclists.

Merging textile bags (1) from BAGS-CONNECTION and QUICK-LOCK Tankrings from SW-MOTECH was the start of their common future. Since 2006, BAGS-CONNECTION is located together with SW-MOTECH in Rauschenberg, Hesse (2).

Today, BAGS-CONNECTION is a well known source for innovative motorcycle luggage solutions, as well as an accredited OEM supplier. Together with SW-MOTECH, BAGS-CONNECTION is represented in 60 countries throughout the world.

Competence

Engineering, design, patented technologies and innovation.

BAGS-CONNECTION stands for expertise in development and production of useful luggage solutions.

Quality

BAGS-CONNECTION stands for outstanding quality, durability and refinement.
Designed by Motorcyclists for Motorcyclists, our products are state of the art when it comes to a thoughtful feature-set and superior materials. Built to survive adventures around the globe in the deepest wilderness and the toughest cities.

Evolution

In 2014, BAGS-CONNECTION presents a new panniers set, DAKAR (3).
With the combination of high quality materials and intelligent features this panniers set will surely be one of the highlights of the upcoming season.

Also BAGS-CONNECTIONs Waterproof Line (4) will be extended this year.

Absolutely waterproof soft luggage for all weather, all terrain.

DAKAR

Regardless of how long you ride or how hard you ride, DAKAR panniers are built to survive in the roughest conditions. The 2 layer system of the bag combines a tough exterior outer layer with a waterproof inner layer to create a super-durable drybag. DAKAR – the advancement of BLAZE for extreme strength.

Model application lists available on our website and application part from ▸▸ p. 150

DAKAR Panniers Set

Features: waterproof velcro roll closure, preformed ABS honeycomb panel on interior for a rigid form on the side close to the side carrier and bike, light-weight bike-specific pannier system*. Made for bikes with overhead exhausts. ◘ Included: 2 DAKAR bags, 2 waterproof inner bags, 2 bike-specific panniers

Volume: 32 l per bag (64 l total)
Size: 35 x 45 x 25 cm (h x w x d) per bag
Weight: 1.6 kg per bag
Material: 1680 D Ballistic Nylon
Color: Grey / Black

Function:
1 Bike-specific pannier*
2 Slide DAKAR on the pannier* from the bottom
3 DAKAR snaps into pannier*
4 Secure DAKAR with velcro on pillion

*Panniers only suitable for DAKAR

BLAZE®

BLAZE® Panniers Set impresses with dynamic design, incredibly lightweight and reasonable price.
BLAZE® combines high quality 1680 Ballistic Nylon material with a unique support system to deliver rock-solid, bike-specific solutions for riders that want to go fast and not look back.

"Patented support system for maximum safety and stability while riding at high speeds."

BLAZE® Panniers Set

Features: ① removable support arm, covered zipper, reflective details, main compartment with top loading function and outside pocket with side loading function. ◘ Bike-specific. ◘ Included: 2 panniers, 2 inner bags, bike-specific mounting kit (② 2 QUICK-LOCK frame mounts, 2 support arms).

Individual adjustment for perfect fit
(screw connection on Tankbag)

QUICK-LOCK EVO Tankring vs. QUICK-LOCK Tankring:

- ✖ Different design
- ✖ Different attachment of the Tankbag on the tank (vertical or inclined)
- ✖ Different profile design
- ✖ EVO Security Pin only available for QUICK-LOCK EVO Tankring

- ✓ Same installation of Topring on Tankbag
- ✓ Same removal of Tankbag with pulling-cord
- ✓ Same material

Attach

Lower the bag from behind the Tankring

Simply pivot downwards to engage

Remove

Pull the cord to release

QUICK-LOCK EVO

Electric Tankring

Versatility redefined: the use of electronic devices while riding motorcycles and their power supply is the main feature of this unique luggage solution.
With the QUICK-LOCK Electric Tankring, our QUICK-LOCK Tankbags are in the truest sense of the word energized. The Electric Topring (included with all Electric Tankbags and available separately) comes as a kit and allows all owners of QUICK-LOCK EVO Tankrings to upgrade their "regular" EVO into an EVO Electric Tankring, therefore supplying their Tankbag with electricity directly from the motorcycle battery.
Features: secured through a patented switch mechanism, electricity only flows if the Tankbag is mounted. The power is immediately cut off as soon as the Tankbag is removed from the Tankring. Therefore a short circuit is impossible. ◘ Technical information: operating current up to a maximum of 7.5 amps, vibration-proof, spring-loaded contacts, fiber-glass reinforced plastic, black.

QUICK-LOCK EVO Electric Topring to convert includes: QUICK-LOCK EVO Electric Topring for Tankbag, Electric Kit for QUICK-LOCK EVO Tankring, adapter from the Topring to SAE, which allows a variety of connection options, like Cigarette Lighter Outlet or Norm Outlet.

QUICK-LOCK EVO Electric Tankbag **(▸▸ p. 42)** includes: QUICK-LOCK EVO Electric Tankbag, QUICK-LOCK EVO Electric Topring, Electric Kit for QUICK-LOCK EVO Tankring, adapter from the Topring to SAE, which allows a variety of connection options, like Cigarette Lighter Outlet or Norm Outlet.

ROK™ straps

With superior design qualities, ROK™ straps are very strong, long-lasting, attractive and above all else, SAFE! Designed specifically for motorcycles, ATVs (Quads) and snowmobiles, these straps are easy to use, hold cargo under constant tension, and have no dangerous hooks that can cause scratches. The loops on both ends can be secured to just about anything and the mid-strap buckle can be quickly adjusted as needed.
Included: 2 ROK™ straps each.

Motorbike Zipper

Lock

The Motorbike Zipper Lock is ideal for securing the contents of any luggage with compatible zipper pulls. Simply pull through any compatible zipper pulls and engage the lock. Compatible with all BAGS-CONNECTION Tailbags.

Motorbike Luggage

Cable Lock

Ideal for securing both bag and bag-contents to the bike. Simply loop the combination end around the frame of the bike, through the loop on the other end of the cable and attach it to the bag's zipper pulls and/or D-rings. Compatible with all BAGS-CONNECTION Tankbags and Tailbags.

QUICK-LOCK

GPS-Mount

Model-specific solutions

This bike-specific GPS-Mount is installed in the handlebar area to allow instant attachment and removal of GPS or multimedia device.

Features: bike-specific, removable top section, universal hole pattern for GPS Mount, combinable with NAVi Bags. Top section pivots for optimal viewing angle. Reduced vibration and shock transmission on mounted GPS or multimedia devices through integrated dampers. ◘ Technical Information: powder-coated surface, black. QUICK-LOCK Mount made from glass reinforced plastic.

Universal

GPS Mount Kits

Universal solutions

Secure mounting of your GPS device. The Universal GPS Mount Kits provide a variety of mounting options of a GPS device on your bike. Can be mounted to the mirror through Mirror Thread GPS Mount or various other mounting points via ball for M6 / M8 thread and rotatable RAM Arm. Mounting to the handlebar via universal clamp (made of fiberglass reinforced plastic) is particularly recommended.

Suitable for handlebars with 22 mm, 28 mm and 1" diameter. The splash proof NAVi Bag M or 5" additionally protects your navigation device from almost any weather conditions. Included: ① universal mounting clamp with rubber inserts for handlebars with 22 mm/28 mm/1", ② Mirror Thread GPS Mount, ③ Ball f. M6/M8 thread, ④ RAM Arm 3", ⑤ Universal Mount, ⑥ NAVi Bag (▸▸ p. 88) M, 5" (depending on kit) or w/o bag, mounting material, mounting instructions.

Gear Levers 104

Footrest Kits 106

Bar Positioning 108

AIRHAWK® Cushions 114

Gear Levers

CNC machined from high tensile strength aluminium and hard coat anodized for extra durability, these parts are real beauties. The lightweight levers are much stronger than OEM levers and are ergonomically designed to adjust to all shoe sizes. The spring-loaded folding pegs add important function by preventing breakage in minor drops that would normally render other shift levers useless.

Features: individual adjustment due to 1, 2 or 3 cm or stepless adjustable unit (bike-specific). A spring lock ensures functionality, even after a fall over. Two-piece Gear Levers made of CNC machine milled aluminium, black/silver. ◘ Optional accessories: extension to enlarge shift peg length, for a more customized fit.

AIRHAWK®

Cushions

The last mile feels like the first, super relaxed and comfortable. Thanks to AIRHAWK®s air cushions with exclusive Shape Fitting Technology®. This patented system eliminates painful points and promotes consistent blood flow for a longer, more comfortable ride.

Why using a cushion?

Sitting on a bike over long distances means a lot of stress for the body. High pressure on the bones in the region of the buttocks reduces blood circulation, resulting in a feeling of numbness. Also joints and back get stressed. AIRHAWK® cushions eliminate those problems and increase riding comfort.

How it works:

AIRHAWK®s Shape Fitting Technology® adjusts to your contour. Small interconnected air cells evenly distribute your weight and pressure over the entire motorcycle seat cushion, reducing the pressure points that cause pain. The air cells also work as mini shock absorbers, reducing vibration.

Features

- Great riding comfort
- Reduction of vibrations and concussions
- Raises the seat by max. 1–1.5 cm
- Breathable to improve the circulation
- Waterproof material inside the cushion
- Weight: approx. 300 g incl. cover
- Mounting straps for additional safety
- Fits most motorcyles, for both rider and pillion
- Removable, washable cover (up to 30° C) with non-slip surface at the bottom side and strech material on top
- Material: polyurethane (for newcomer, 2 year warranty) or neoprene (rubber with absorbing effect, 3 years warranty)

⚠ **Note:** not available in all countries. Please contact your distributor in your country.

KOBRA

Handguards

Aggressive design that stands out. This impact-resistant handguard made of polypropylene plastic offers maximum protection from the elements and stone chips. Integration with a full-wrap aluminium frame offers superior protection in crashes or sustained off-road riding. A variety of mounting kits are available for a custom fit on a large range of motorcycle models. The optional indicators with 16 LEDs each side ensure improved visibility in traffic while being perfectly integrated with the handguard form. The optional extension is also available for extreme weather conditions, guaranteeing almost 50 % more protection, even at the sides.

Technical Information: polypropylene plastic. Made for original handlebar. Color: Black. ◘ Mounting options: full-wrap aluminium frame, 1-point mounting or mounted to the handlebar inside thread. ◘ Included: 2 KOBRA Handguards, 2 solid aluminium frames, mounting hardware, mounting instructions. ◘ Optional accessories: KOBRA Extension. KOBRA LED Indicator with E-test mark (1 watt, overall 16 LEDs each Handguard). Resistors for original indicators with 10 watt or 21 watt.

1. Choose mounting hardware

◘ Universal and bike-specific kits include aluminium frame and all mounting hardware. ◘ Full-wrap aluminium frame prevents damage to brake and gear levers in case of a tip-over. ◘ Great impact performance for maximum safety.

2. Choose your protection

◘ Handguards are available separately to customize the handguards to the riders needs with VPS or Storm plastics. ◘ Protective handguards made from high impact resistance plastic, ergonomically designed.

EGO /1

Toughest and most durable handguard on the market!
◘ The legendary EGO handguard has proven itself as the toughest and most durable handguard on the market. ◘ Super strong aluminium backbone is integrated into the replaceable plastic guard to create a strong functional handguard. ◘ Compact design.
Suitable for: Enduro, Trail, Rallye (tested by professional Motocross use)

⚠ **Attention:** not suitable for motorcycles with long clutch and brake levers.

NEW

Storm /2

Maximum protection from the elements with Style
◘ Designed for street bikes. ◘ Aerodynamic design directs wind and rain from hands and offers excellent weather protection for the hands. ◘ Large wrap around guard for more protection. ◘ Choice of single point mounting options to fit many popular street bikes or fast and easy 1- or 2-point mounting system for dual-sport and adventure-touring bikes.
Suitable for: Street, Cruiser, Naked, Touring

NEW

JET /3

Designed and custom built for Trail and Enduro riders
◘ Super strong aluminium frame, treated with heat for maximum strength. ◘ Ergonomic drop down frame design, ideal for bikes with long levers. ◘ Three axis mounting clamps for easy installation.
Suitable for: Dual-Sport, Enduro, Trail

NEW

VPS /4

The variable protection system
◘ Ergonomic design with plenty of clearance for bikes with long levers. ◘ Reinforced aluminium frame. ◘ Integrated replaceable plastic guard with variable Height Wind Deflector. ◘ Wind Deflector can be fitted in two positions for increase wind protection or removed for a more compact feel.
Suitable for: MX, Enduro, Supermoto, Dual-Sport, ATV

NEW

Mirror
Extensions

Mirror Extensions provide a better view of traffic behind by increasing the distance of the mirrors from fairing and handlebars.

Features: attractive outline supports integration in the appearance of the motorcycle or scooter. ◘ Technical Information: Hinge, Universal and Link Mirror Extension are CNC-milled from black-anodized, high-strenght aluminium. Profile Mirror Extensions are CNC-milled from polyamide.

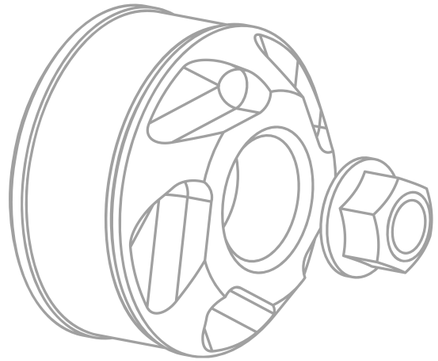
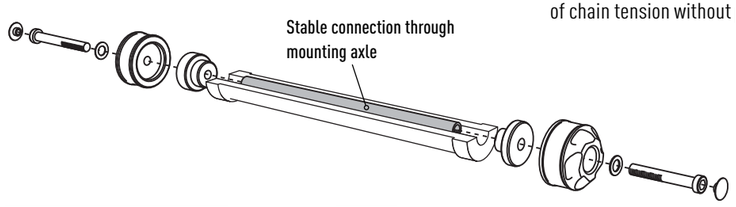
SMF Style meets Function ▸▸ p. 138





Axle

Sliders

Perfectly protected. Slider Kits made of abrasion resistant synthetics to protect drive shafts or swing arms against damage from crashes or drops.

Features: a diameter of 50 mm ensures a notably large bearing surface for the best possible distribution of force. Adjustment of chain tension without problems possible!

Model application lists available on our website and application part from ▸▸ p. 150

Rear axle: easy chain tension adjustment

Maintenance

Centerstands 134

Maintenance Stands/
Screw and Nuts Assortments/
Paint Repair Kits 136

Maintenance essentials for emergency repairs and everday care.

Centerstands

We are still performing pioneering work! Our centerstands guarantee easy jack up, optimal lean angle and safe stand in almost any situation. The must-have accessory for sport-touring. Our centerstands make maintenance work possible in almost any terrain (chain maintenance, tire changes). Our tip: use a centerstand to save space and protect your tires while long-term parking.

Features: no welding, cutting or drilling of existing frame or body parts required. Textured surface for safe jack up, optimal lean angle and ground clearance. ◘ Design allows adequate leverage for easy use. ◘ **European TÜV-certified**. ◘ Technical Information: high-strength, light-weight, steel tube construction. Sandblasted and chemically treated before powder-coating for extra-durable, corrosion-resistant surface. ◘ Color: Black. ◘ Optional accessory: Spring Mounting Tool.

GSTAC

General Sales Terms and Conditions of SW-MOTECH GmbH & Co. KG and BAGS-CONNECTION GmbH & Co. KG, Ernteweg 8/10, 35282 Rauschenberg, Deutschland.

Section 1: General, sphere of applicability

(1) These General Sales Terms and Conditions (GSTAC) shall apply to all our business relationships with our customers (hereinafter referred to as the "Purchasers"). The General Sales Terms and Conditions shall apply only if the Purchaser is an entrepreneur (section 14 BGB[1]), a legal entity under public law or a special fund under public law.

(2) The General Sales Terms and Conditions shall apply in particular for contracts governing the sale and/or the delivery of moveable items (hereinafter referred to as the "Goods") without any consideration of whether we produce the Goods ourselves or buy them from suppliers (sections 433, 651 BGB). The General Sales Terms and Conditions shall apply in the particular version concerned as a framework contract also for future contracts governing the sale and/or delivery of moveable items with the same Purchaser without our having to draw attention to this in each individual case; we shall inform the Purchaser in such a case without delay about any amendments to our General Sales Terms and Conditions.

(3) Our General Sales Terms and Conditions shall apply exclusively. Any deviating, contrary or supplementary general terms and conditions of the Purchaser shall only become a part of this Contract then and inasmuch as we have expressly agreed to their application. This requirement for agreement shall apply in every case, for example also if we carry out delivery to the Purchaser without reservation and with knowledge of the Purchasers general terms and conditions.

(4) Any individual agreements made with the Purchaser in the individual case (including ancillary arrangements, supplements and amendments) shall always have priority over these General Sales Terms and Conditions. For the content of such agreements, an agreement made in written form or our confirmation given in written form shall be decisive.

(5) Declarations and notices of legal significance which are to be given to us by the Purchaser after conclusion of contract (e.g. the setting of periods, notices of defect, declaration of withdrawal or reduction) require written form to be effective.

(6) Indications to the applicability of statutory regulations only have clarifying significance. Even without such clarification, the statutory regulations shall apply therefore without their being amended directly or excluded expressly in these General Sales Terms and Conditions.

(7) For orders through our online shop, the indications given there shall be observed separately.

Section 2: Conclusion of Contract outside the online shop

(1) For the conclusion of contract through our online shop, the "General Terms and Conditions for Purchases in the Online Shop" included there shall apply.

(2) Our offers outside the online shop are subject to confirmation and non-binding. This shall also apply when we have given the Purchaser catalogues, technical documentation (e.g. drawings, plans, calculations, references to DIN norms), other product descriptions or documents – also in electronic form – in which we reserve title and copyright.

(3) The acceptance of the offer of purchase may be declared by us to the Purchaser either in written form or through delivery of the Goods to the Purchaser.

Section 3: Delivery dates

(1) Delivery dates or periods, which have not been expressly agreed as binding, are exclusively non-binding offers.

(2) Inasmuch as we cannot keep to binding delivery periods for reasons for which we do not bear the responsibility (non-availability of service), we shall inform the Purchase about this without delay and, at the same time, give notice of the probably, new delivery period. If the service is not available even within the new delivery period, we are entitled to withdraw either fully or partly from the Contract; any already provided counter performance of the Purchaser shall be refunded without delay. Any self-delivery by our suppliers shall be regarded as non-availability in these terms if we have concluded a congruent hedge transaction, neither we nor our suppliers have incurred any fault and we are not obliged to procurement in the individual case.

(3) The rights of the Purchaser in accordance with section 8 of these General Sales Terms and Conditions and our statutory rights, in particular in case of exclusion of the obligation of service (e.g. due to impossibility or unreasonableness of service and/or subsequent performance), are not affected.

Section 4: Delivery, transfer of risk, return of Goods free of defects

(1) Delivery shall take place ex works which shall also be the place of performance. On request by and at the expense of the Purchaser, the Goods shall also be sent to another place of destination (sale to destination). Inasmuch as nothing else has been agreed, we are entitled to determine the type of shipping (in particular the carrier, the despatch route, packaging) ourselves.

(2) The risk of accidental destruction or accidental deterioration of the Goods shall be transferred at the latest on being handed over to the Purchaser. In the case of sale to destination, however, the risk of accidental destruction or accidental deterioration of the Goods and the risk of delay shall be transferred to the carrier or the haulage contractor already on delivery of the Goods to the carrier or the haulage contractor.

(3) There is no take-back obligation for Goods delivered free of defects. If we declare that we are prepared, by way of fairness, to take back Goods which are in faultless condition and in their original packaging, a Goods credit deducting a re-storage fee of 10% of the calculated price shall be made after the Goods have been received by us and the Purchaser has provided verification of delivery. If the Goods have been unpacked but are complete and undamaged, 20% of the calculated price shall be deducted for control, packaging and re-storage work. There shall be greater deduction if the Goods are incomplete and/or damaged whereby in such cases we reserve the right to refuse to take back the Goods.

Any set-off shall only be permitted after credit has been given. Before return of the Goods in the case of being taken back for reasons of fairness, the Purchaser shall request a RMA number (Return Merchandise Authorisation) as the Goods shall be quickly and correctly assigned by us on receipt.

Section 5: Prices, payment conditions

(1) Inasmuch as, in the individual case, nothing else has been agreed, our current prices, which are applicable at the point of time of conclusion of contract, shall apply ex store plus the statutory VAT.

(2) In the case of sale to destination (section 4 sub-section 1), the Purchaser shall bear the transport costs ex store and the costs of any transport insurance if desired by the Purchaser. Any customs duties, charges, taxes or other public levies shall be borne by the Purchaser. We shall not take back any transport or any other packaging costs in accordance with the stipulation of the Packaging Regulation; they shall become the property of the Purchaser with the exception of pallets.

[1]German Civil Code

(3) Our invoices are due on issuance and payable net without deduction. Any other payment period requires separate agreement. We reserve the right to request advance payment in individual cases. If direct debit has been agreed, the payment amount shall be due one day after the receipt of invoice unless a different due date has been stated on the invoice. Advance information of direct debit (SEPA pre-notification) shall take place together with the invoice. Receipt of advance information, at the latest one day before due date is sufficient (debit of invoice sum). We are entitled to demand interest amounting to the credit costs that we have to pay, but to at least one percent per month, from the Purchaser, who is a businessman in the terms of the Commercial Code (HGB), from due date onwards and from the Purchaser, who is not a businessman, from default onwards.

(4) The Purchaser shall only have the right to set-off or retention inasmuch as his claim has been established with legal effectiveness or is undisputed. In the case of defects in the delivery, the counter rights of the Purchaser, in particular in accordance with section 7 sub-section 6 sentence 2 of these General Sales Terms and Conditions, remain unaffected.

Section 6: Reservation of title

(1) Up until full payment of all our present and future demands from the Purchase Contract and a current business relationship (secured demands), we reserve title in the sold Goods.

(2) The Goods, which are subject to reservation of title, may neither be assigned to third parties before full payment of the secured demands, nor transferred for security. The Purchaser shall notify us without delay and in writing if and inasmuch access by third parties to Goods, which belong to us, takes place.

(3) In the case of behaviour on the part of the Purchaser contrary to contract, in particular in the case of non-payment of the due purchase price, we shall be entitled, in accordance with the statutory regulations, to withdraw from the Contract and/or demand surrender of the Goods on the basis of the reservation of title. A demand for surrender does not at the same time mean withdrawal; rather we are entitled to demand surrender of the Goods and reserve the right to withdrawal. If the Purchaser does not pay the due purchase price, we may only assert these rights if we have previously set the Purchaser a reasonable period for payment without success or such setting of a period is not necessary in accordance with the statutory regulations.

(4) The Purchaser is entitled to resell and/or process the Goods, to which title is reserved, in the correct course of business. In such a case, the following provisions shall apply in addition:

(a) reservation of title shall extend to products arising from the processing, mixing and combining of our Goods to their full value, in which case, however, we shall be regarded as the producer. If, in processing, mixing or combining them with the Goods of third parties their right to ownership remains, we shall acquire co-ownership in the ratio of the invoice value of the processed, mixed or combined Goods. Otherwise, the same shall apply to the product emerging as to the Goods delivered under the reservation of title.

(b) The Purchaser shall assign demands arising from re-sale of the Goods or the products against third parties already now in full or at the amount of any co-ownership share of ours in accordance with the above paragraph as surety to us. We accept such assignment. The duties of the Purchaser stated in sub-section 2 shall also apply in view of the assigned demands.

(c) The Purchaser is also authorised to collect the demand as well as we are. We undertake not to collect the demand as long as the Purchaser meets his payment obligations towards us, does not come into default of payment, no application for the opening of insolvency proceedings has been made and no other defect in his efficiency is apparent. Is this is the case, however, we may demand that the Purchaser notifies us of the assigned demands and their debtors, supplies all information necessary for collection, hands over the appropriate documents and notifies the debtors (third parties) of assignment.

(d) If the realisable value of the sureties exceeds our demands by more than 10%, we shall release sureties in accordance with our choice on request by the Purchaser.

Section 7: Purchasers claims for defects

(1) The statutory regulations shall apply to the Purchasers rights in respect to material and legal defects including incorrect and reduced delivery and incorrect or defective assembly instructions) inasmuch as nothing else has been determined in the following. In all cases the statutory special regulations in case of final delivery of the Goods to a consumer remain unaffected (supplier recourse sections 478, 479 BGB).

(2) The basis of our defect liability is, above all, the agreement made concerning the composition of the Goods. All product descriptions concerning the Goods, which are the subject matter of the individual contract, shall be regarded as agreement concerning the composition of the Goods; there is no difference here whether the product description originates from the Purchaser, from the producer or from us.

(3) Inasmuch as the composition has not yet been agreed, it shall be judged in accordance with statutory regulation whether there is a defect or not (section 434 sub-section 1 sentence 2 and 3 BGB). We do not assume any liability, however, for public statements by the producer or other third parties (e.g. advertising statements).

(4) The claims for defect claims of the Purchaser, who is a businessman, require that he has met his statutory examination and complaint duties without delay. Notice is regarded as without delay if it takes place within seven days in written form with a description of the defect. The same shall apply for defects which are discovered later.

(5) If the item, which has been delivered, is defective, we may first of all choose whether we provide subsequent performance by eliminating the defect (subsequent improvement) or by delivery of an item free of defects (replacement delivery). Our right to refuse subsequent performance under the statutory prerequisites remains unaffected.

(6) We are entitled to make the subsequent performance owed dependent on the Purchaser paying the due purchase price. The Purchaser is, however, entitled to retain a reasonable part of the purchase price in the ratio to the defect.

(7) The Purchaser shall give us the time and opportunity necessary for the subsequent performance owed, in particular to hand over the Goods which are subject to complaint for purposes of testing. In the case of replacement delivery, the Purchaser shall return the defective item in accordance with the statutory regulations. Subsequent performance means neither removal of the defective item nor re-installation if we were not originally obliged to install.

(8) We shall bear the expenditure necessary for examination and subsequent performance, in particular the transport, way, labour and material costs (not: removal and installation costs) if there is in actual fact a defect. If however, the defect elimination demand of the Purchaser turns out to be unjustified, we may demand the costs arising for this from the Purchaser.

(9) In urgent cases, e.g. if operating safety is

endangered or to avert disproportionate damage, the Purchaser has the right to eliminate the defect himself and to demand compensation for the objectively necessary expenses for this from us. We shall be informed about the action taken independently, if possible previously. There is no right to act independently if we would have been entitled to refuse such subsequent performance in accordance with the statutory regulations.
(10) If subsequent performance has failed or a reasonable period to be set for the subsequent performance by the Purchaser has expired without success, or is dispensable in accordance with the statutory regulations, the Purchaser may withdraw from the Purchase Contract or reduce the purchase price. In the case of inappreciable defects, there is however no right of withdrawal.
(11) Any Purchasers claims to damages or compensation for futile expenditure only exist in accordance with the stipulations of section 8 and are otherwise ruled out.

Section 8: Other liability
(1) Inasmuch as nothing else evolves from these General Sales Terms and Conditions including the following provisions, we shall be liable in the case of breach of contractual and non-contractual duties in accordance with the relevant statutory regulations.
(2) We shall be liable for damages – no matter for which legal reason – in the case of intent and gross negligence. In the case of ‚simple' negligence, we shall only be liable
a) for damage arising from fatal injury, physical injury or damage to the health
b) for damage arising from the breach of a significant contractual duty (duty the performance of which enables correct execution of the Contract in the first place and on the adherence to which the contract partner may and generally rely); in this case, however, our liability is limited to compensation for the foreseeable, typically arising damage.
(3) The limitations of liability stated in sub-section 2 shall not apply inasmuch as we have maliciously concealed a defect or have assumed warranty for the composition of the Goods. The same shall apply to the Purchasers claims in accordance with the Product Liability Act.
(4) Due to any breach of duty, which does not consist of a defect, the Purchaser may only withdraw (from the Contract) or terminate if we are responsible for the breach of duty. Any free termination right of the Purchaser (in particular in accordance with sections 651, 649 BGB) is ruled out. Otherwise the statutory prerequisites and legal consequences shall apply.

Section 9: Re-sale
Active re-sale of our products by the Purchaser in countries outside Germany or active or passive re-sale in the US or Canada requires our previous expressed and written approval. In the case of such re-sale without our approval, the Purchaser shall indemnify us against any claim in particular for reasons of product liability or patent protection.

Section 10: Purchasers own examination duties
The Purchaser shall check within his own responsibility whether a product purchased by us may be assembled or used in accordance with the traffic and traffic licence provisions applicable in the intended place of use. We shall assume no liability for non-permitted assembly or taking into service unless we have expressly made a corresponding statement about the specific permissibility for the product.

Section 11: Choice of law and place of jurisdiction
(1) The law of the Federal Republic of Germany shall apply for these General Sales Terms and Conditions and all legal relationships between us and the Purchaser excluding international uniform law, in particular the CISG (UN Convention on Contracts for the International Sale of Goods). Prerequisites and the effects of the reservation of title in accordance with section 6 are subject to the law of the place in which the item is stored inasmuch as in accordance with that the choice of law made is impermissible or ineffective in favour of German law.
(2) If the Purchaser is a businessman in the terms of the German Commercial Code, a legal entity under public law or a special fund under public law, the exclusive – also international – place of jurisdiction for all disputes arising from the contractual relationship, either directly or indirectly, shall be our seat of business in Rauschenberg. We are, however, also entitled to take action at the Purchasers general place of jurisdiction of the Purchaser.
